Discussion

Summary and Next Steps

**The goals for this meeting are as follows:**

- Provide participants with information regarding estimated cost and funding options.

---

### **Glendale Water Supply Improvement Project Goals**

- Provide a reliable water supply to the Glendale Water Treatment Plant
- Receive public input for design
- Construction 2007

### **Project Criteria**

- Reliable water supply for Glendale Water Treatment Plan
- Allow full capacity treatment in normal flow years
- 100% capture of released storage water for TMWA customers in drought years
- Cost effective design
- Technically feasible
- Harmonious with the Truckee River Flood Project
- Environmentally sensitive design
- Supported by the community
