

Glendale Water Supply Improvement Project

Glendale Water Supply Improvement Project Tuesday, November 9, 2004 1:00 – 5:00 PM

Truckee Meadows Water Authority, Tahoe Room, 1155 Corporate Blvd., Reno

AGENDA

- 1:00 Welcome
- 1:05 New Business, *Ron Penrose, Project Manager*
- 1:15 Continuation of 10/19/04 discussion on Fish Passage Design, *ECO:LOGIC Eng.*
- 1:30 Evaluating velocities for fish passage, *Northwest Hydraulic Consultants*
- 2:00 Velocity analysis use in fish passage design, *Chinook Engineering*
- 2:30 Break
- 2:45 Discussion, *Working Group*
- 3:30 Aesthetics, and appearance, , *ECO:LOGIC Eng*
- 4:00 Discussion, *Working Group*
- 4:30 Summary of Discussion and Next Steps
- 5:00 Adjourn

The goals for this meeting are as follows:

1. Provide participants with additional information on fish passage.
2. Relate fish passage and aesthetics criteria.
3. Discuss fish passage design options and implications for the project.

Glendale Water Supply Improvement Project Goals

- Provide a reliable water supply to the Glendale Water Treatment Plant
- Receive public input for design
- Construction 2007

Project Criteria

- Reliable water supply for Glendale Water Treatment Plan
- Allow full capacity treatment in normal flow years
- 100% capture of released storage water for TMWA customers in drought years
- Cost effective design
- Technically feasible
- Harmonious with the Truckee River Flood Project
- Environmentally sensitive design
- Supported by the community
